## ABOUT ME

With over 5+ years of experience as a dynamic Software Engineer, I am fluent in React, Redux, JavaScript, TypeScript, HTML, and CSS. Skilled at developing complex solutions, in designing intuitive user interfaces and delivering high-quality code. Possesses around 1 year of Java experience, contributing to full-stack development. Strong collaborator committed to driving innovation and excellence in software solutions

## EDUCATION

**UNIVERSITY OF ULSTER, NORTHERN IRELAND, UK**  
Master in Artificial Intelligence

Jan 2025–May 2026

## SKILL

- Javascript
- ReactJs
- Redux
- react-redux/toolkit
- HTML
- Typescript
- Tailwind
- Zustand
- Core Java
- CSS/SASS
- Material UI
- react-redux/toolkit
- SQL

## WORK EXPERIENCE

### Descartes Systems Group–Software Developer

04/2024 –12/2024,GURGAON

- Building stable and maintainable code base using React and Zustand. Alongside Collaborating with designer to ensure designs were efficient and technically sound.
- Developed and maintained back-end components for web applications using Java, enhancing application performance and reliability.
- Crafting modular, responsive templates using cutting-edge CSS methodologies and JavaScript frameworks

### World Compliance Technologies(WCT) –Software Engineer

05/2023–04/2024, GURGAON

- Responsible for creating the UI portals using React and Zustand along with Typescript.
- Worked with Material UI, Bootstrap, SASS, SCSS, and Formik with JSON schema for efficient UI development.
- Upgraded the application to create a more interactive and reliable user portal, enhancing overall performance.

### Synoriq – Software Engineer III

07/2021 –05/2023, JAIPUR

- Creating responsive and intuitive user interfaces with React and Redux, ensuring a seamless user experience.
- Developed modular, responsive templates utilizing modern CSS techniques and JavaScript libraries.
- Integrated the OKTA Authentication and Authorization feature into the web portal using OAuth version 2.0

### GlobalLogic – Software Developer

02/2020–07/2021, GURGAON

- Responsible for creating the UI portals using React as well as working with data google analytical tools.
- Designing on Adobe XD for the project to have a better understanding of the application.

### Innodea Innovation pvt Ltd. – Software Developer

09/2018–02/2020,PUNE

- Designed and developed UI portals with plain JavaScript, HTML, and CSS, while concurrently implementing Python neural networks and AI solutions using the OpenCV library.
- Designed user interfaces with Adobe XD, developed flowcharts, and crafted PowerPoint presentations to improve project comprehension and application clarity.
